ADVERTISEMENTS

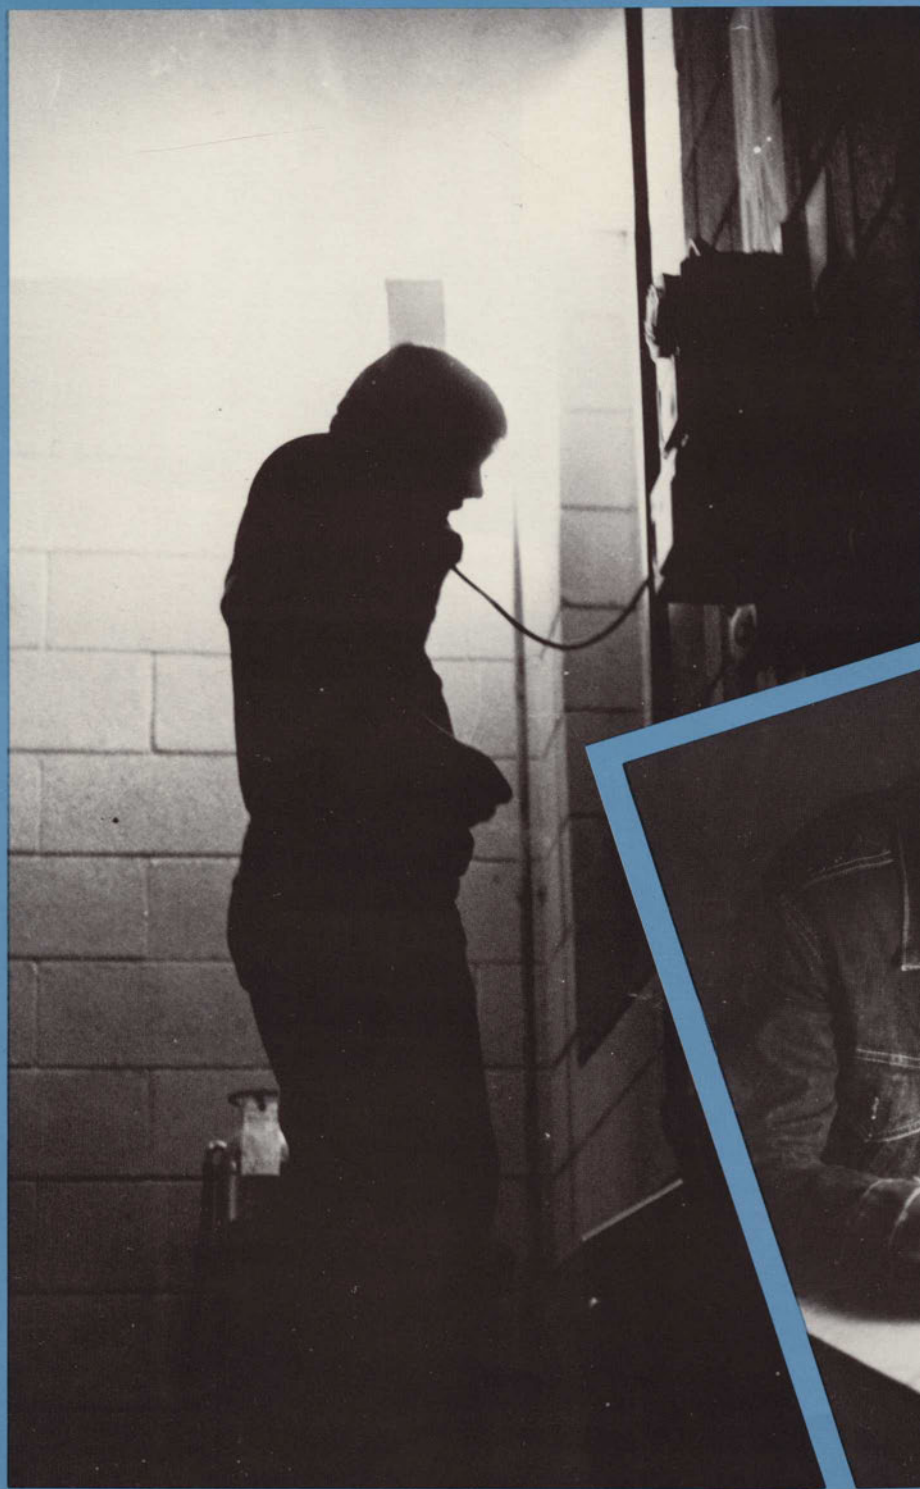

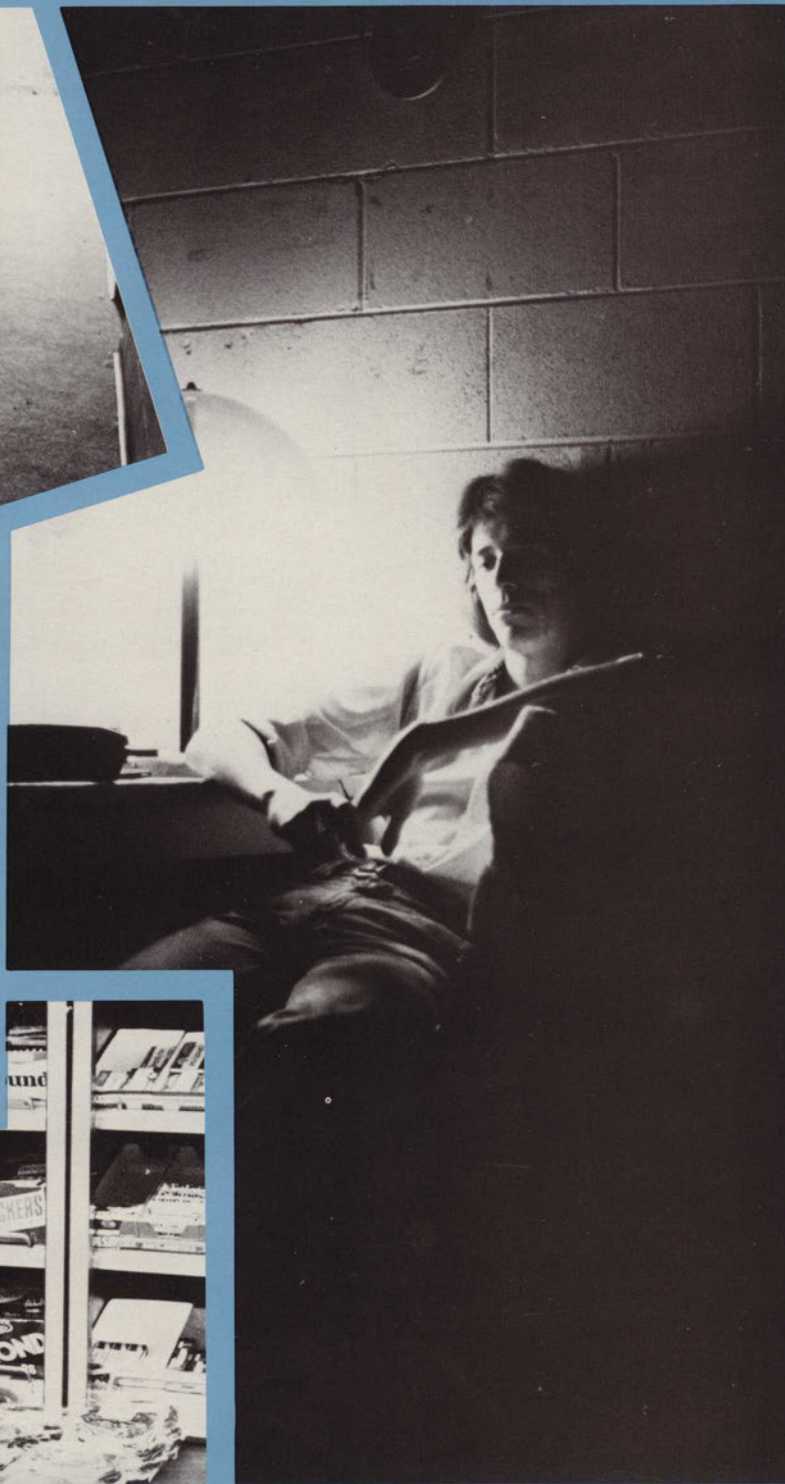

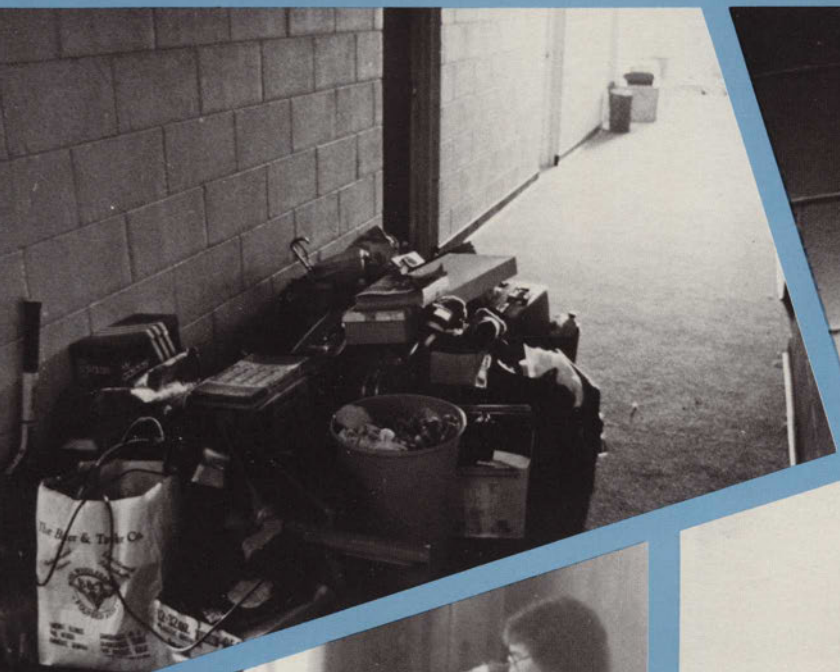

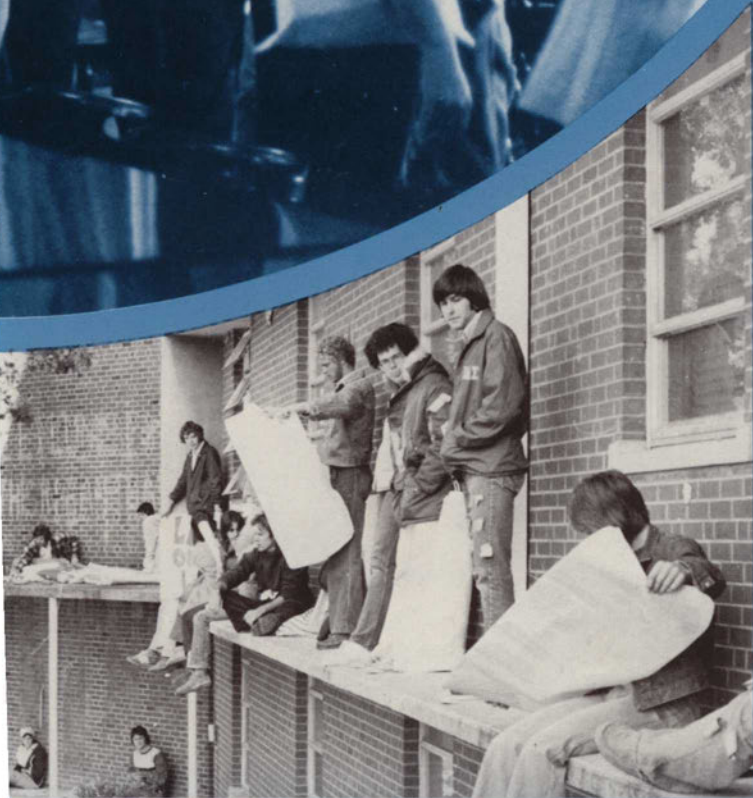

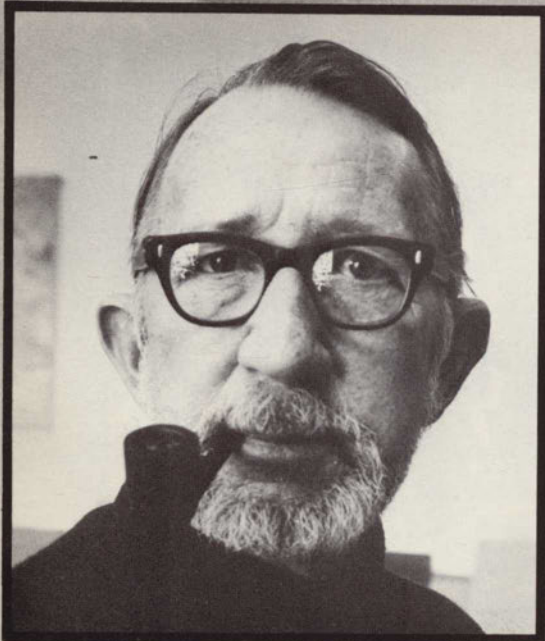

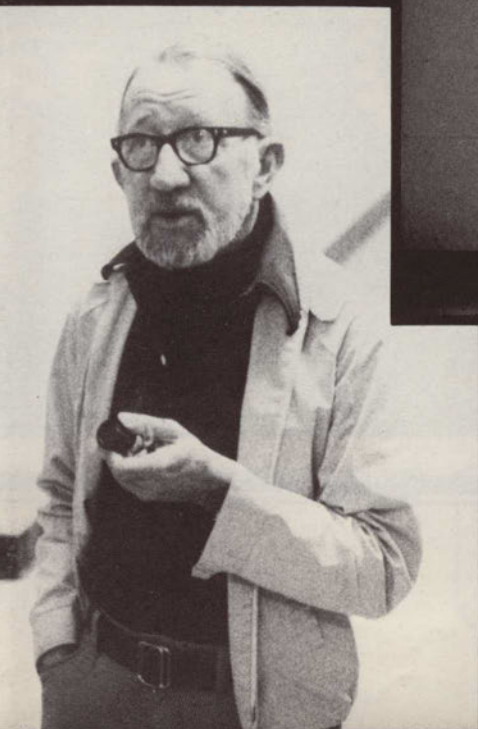

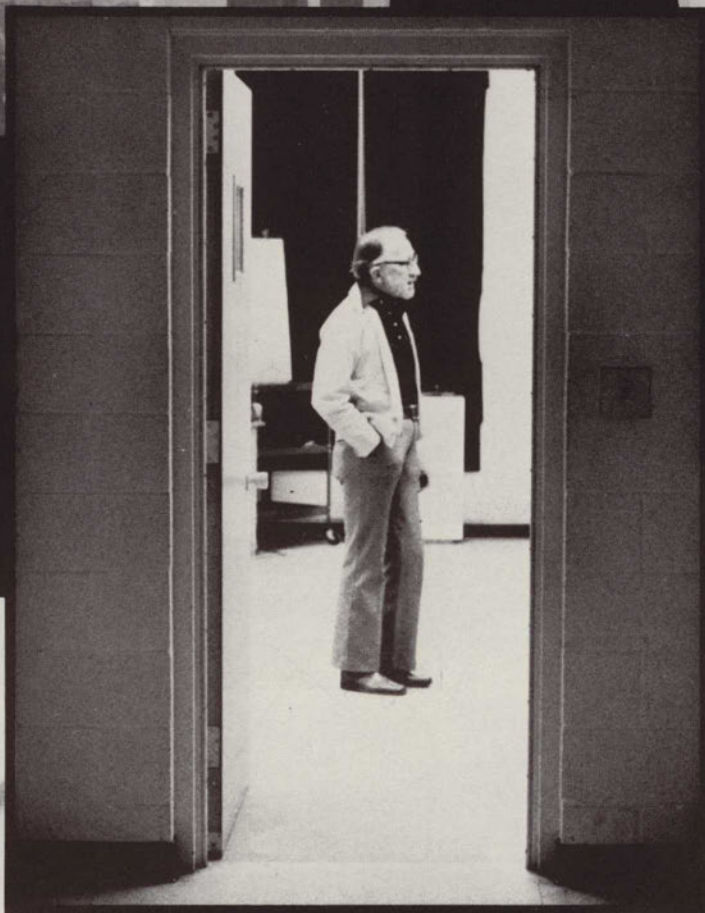

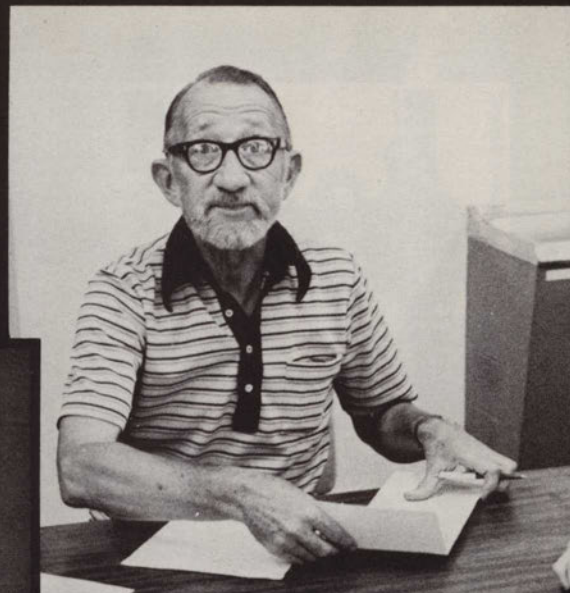

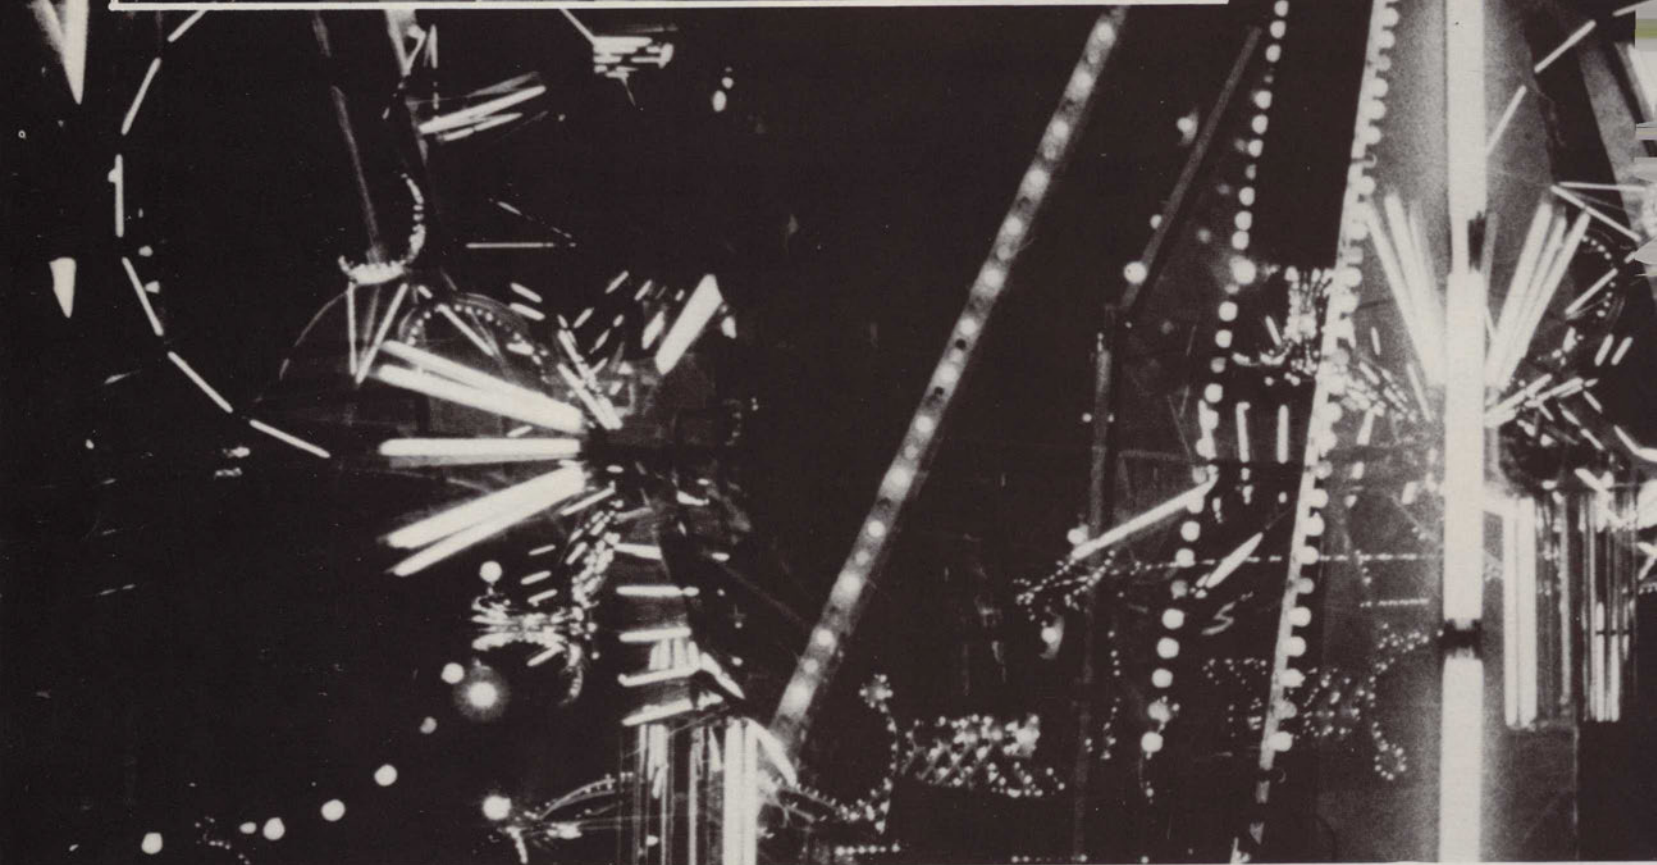

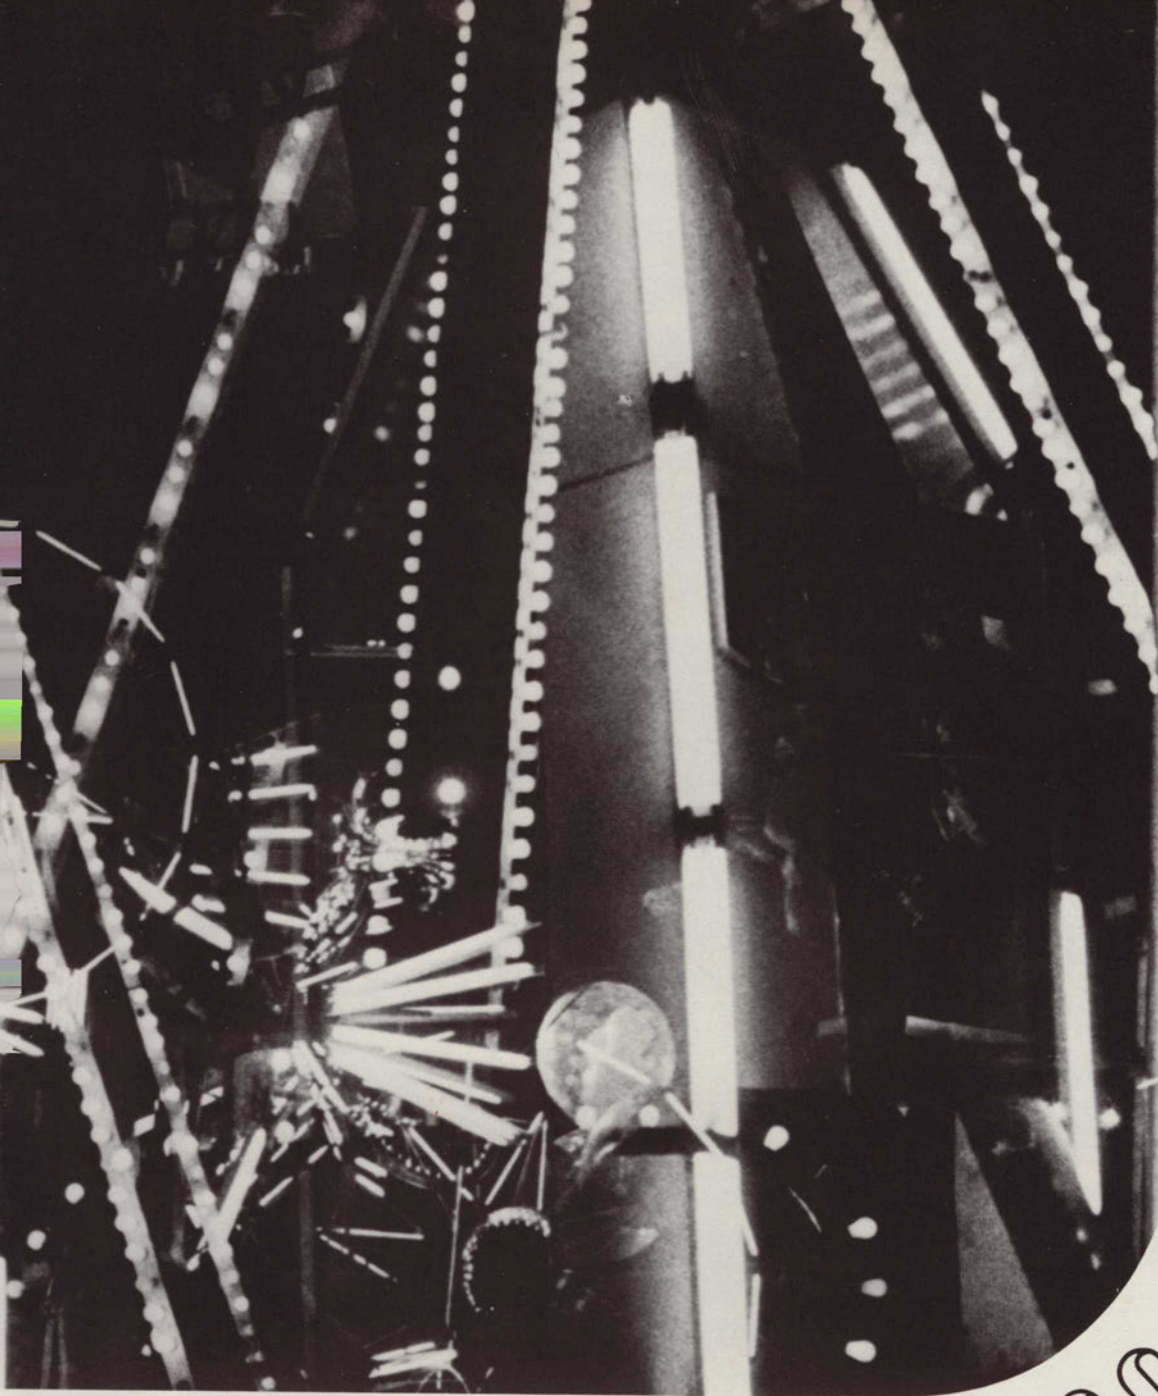

His conviction in art inspires his students; he takes pride and interest in their accomplishments. He uses humor and wisdom of years to guide anyone willing to learn. In return, he asks for respect and expects the best from each student. In recognition of his friendliness and devotion over the years, we dedicate the 1977 ENOTAH to

MISS ENOTAH 1977 — GAIL SMITH

Runners Up — First, Tammy Johns; Second, Anne Sullivan; Third, Kim Stehman (best costume)

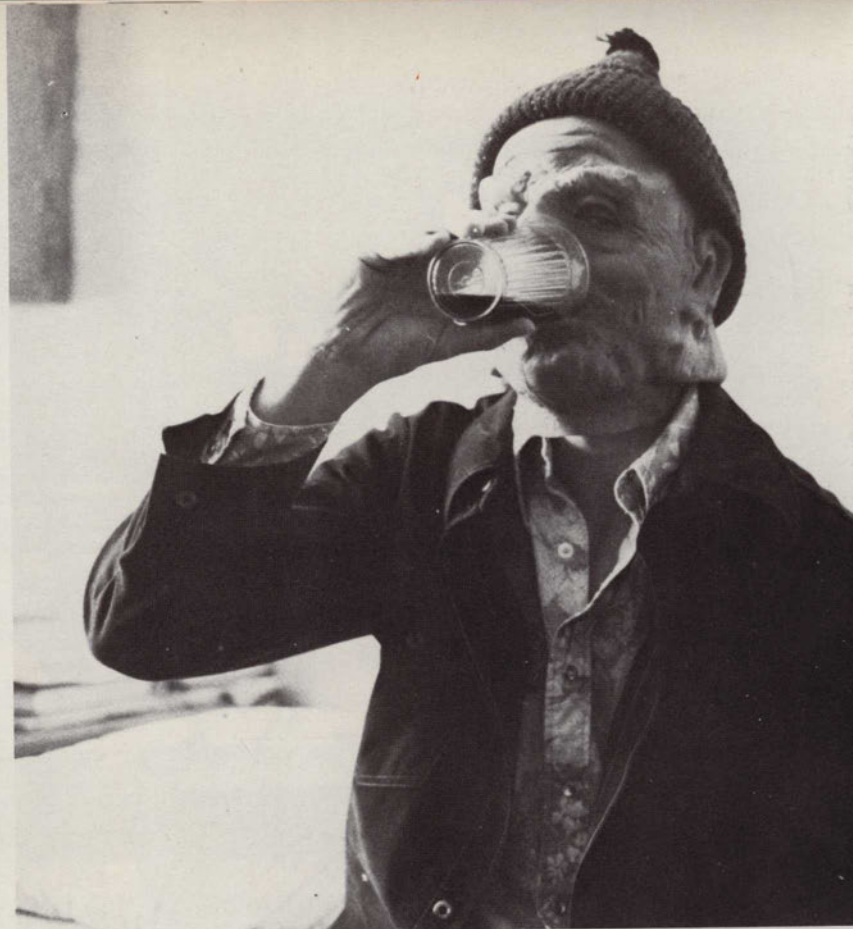

In the light, we can find no wrong with all that we do. The games played, the songs sung and the craziness carried on bring a glow to our faces. These people, these clowns, these competitors, they are our friends. This is where we live and brighten each other's days. This is where the sun comes up over the mountains every morning to shine on our faces and those around us.

Look around, a multitude of faces illuminated by smiles from one another — each one a separate light. Then, like a galaxy, the stars blend together to form common bonds. That is the world we have here, individuals coming together with smiles to form ever lasting relations.

Every day that goes by brings new, wild adventures with people around us. We help each other when the lights grow dim, and remain friends and partners in the zany things we do. Our love and friendship shared over each new dawn is for now and forever.

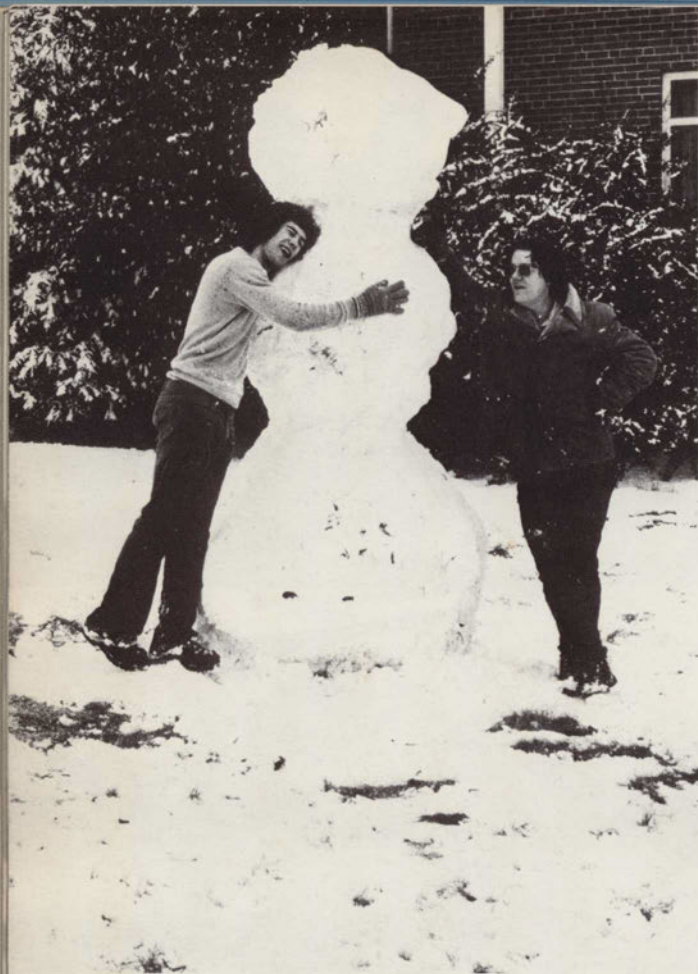

When it snows, everyone comes alive in the clean air. Noses become numb, and cheeks turn red from the wind and the sun beaming off the cover of white crystals. The light is reflected into the eyes of the people who slip and slide on the ice.

A face full of snow, pants becoming soaked after a few falls, the smiles and laughter of people enjoying the sunshine make you realize that here in the brightness is where friends are and where memories will be made.

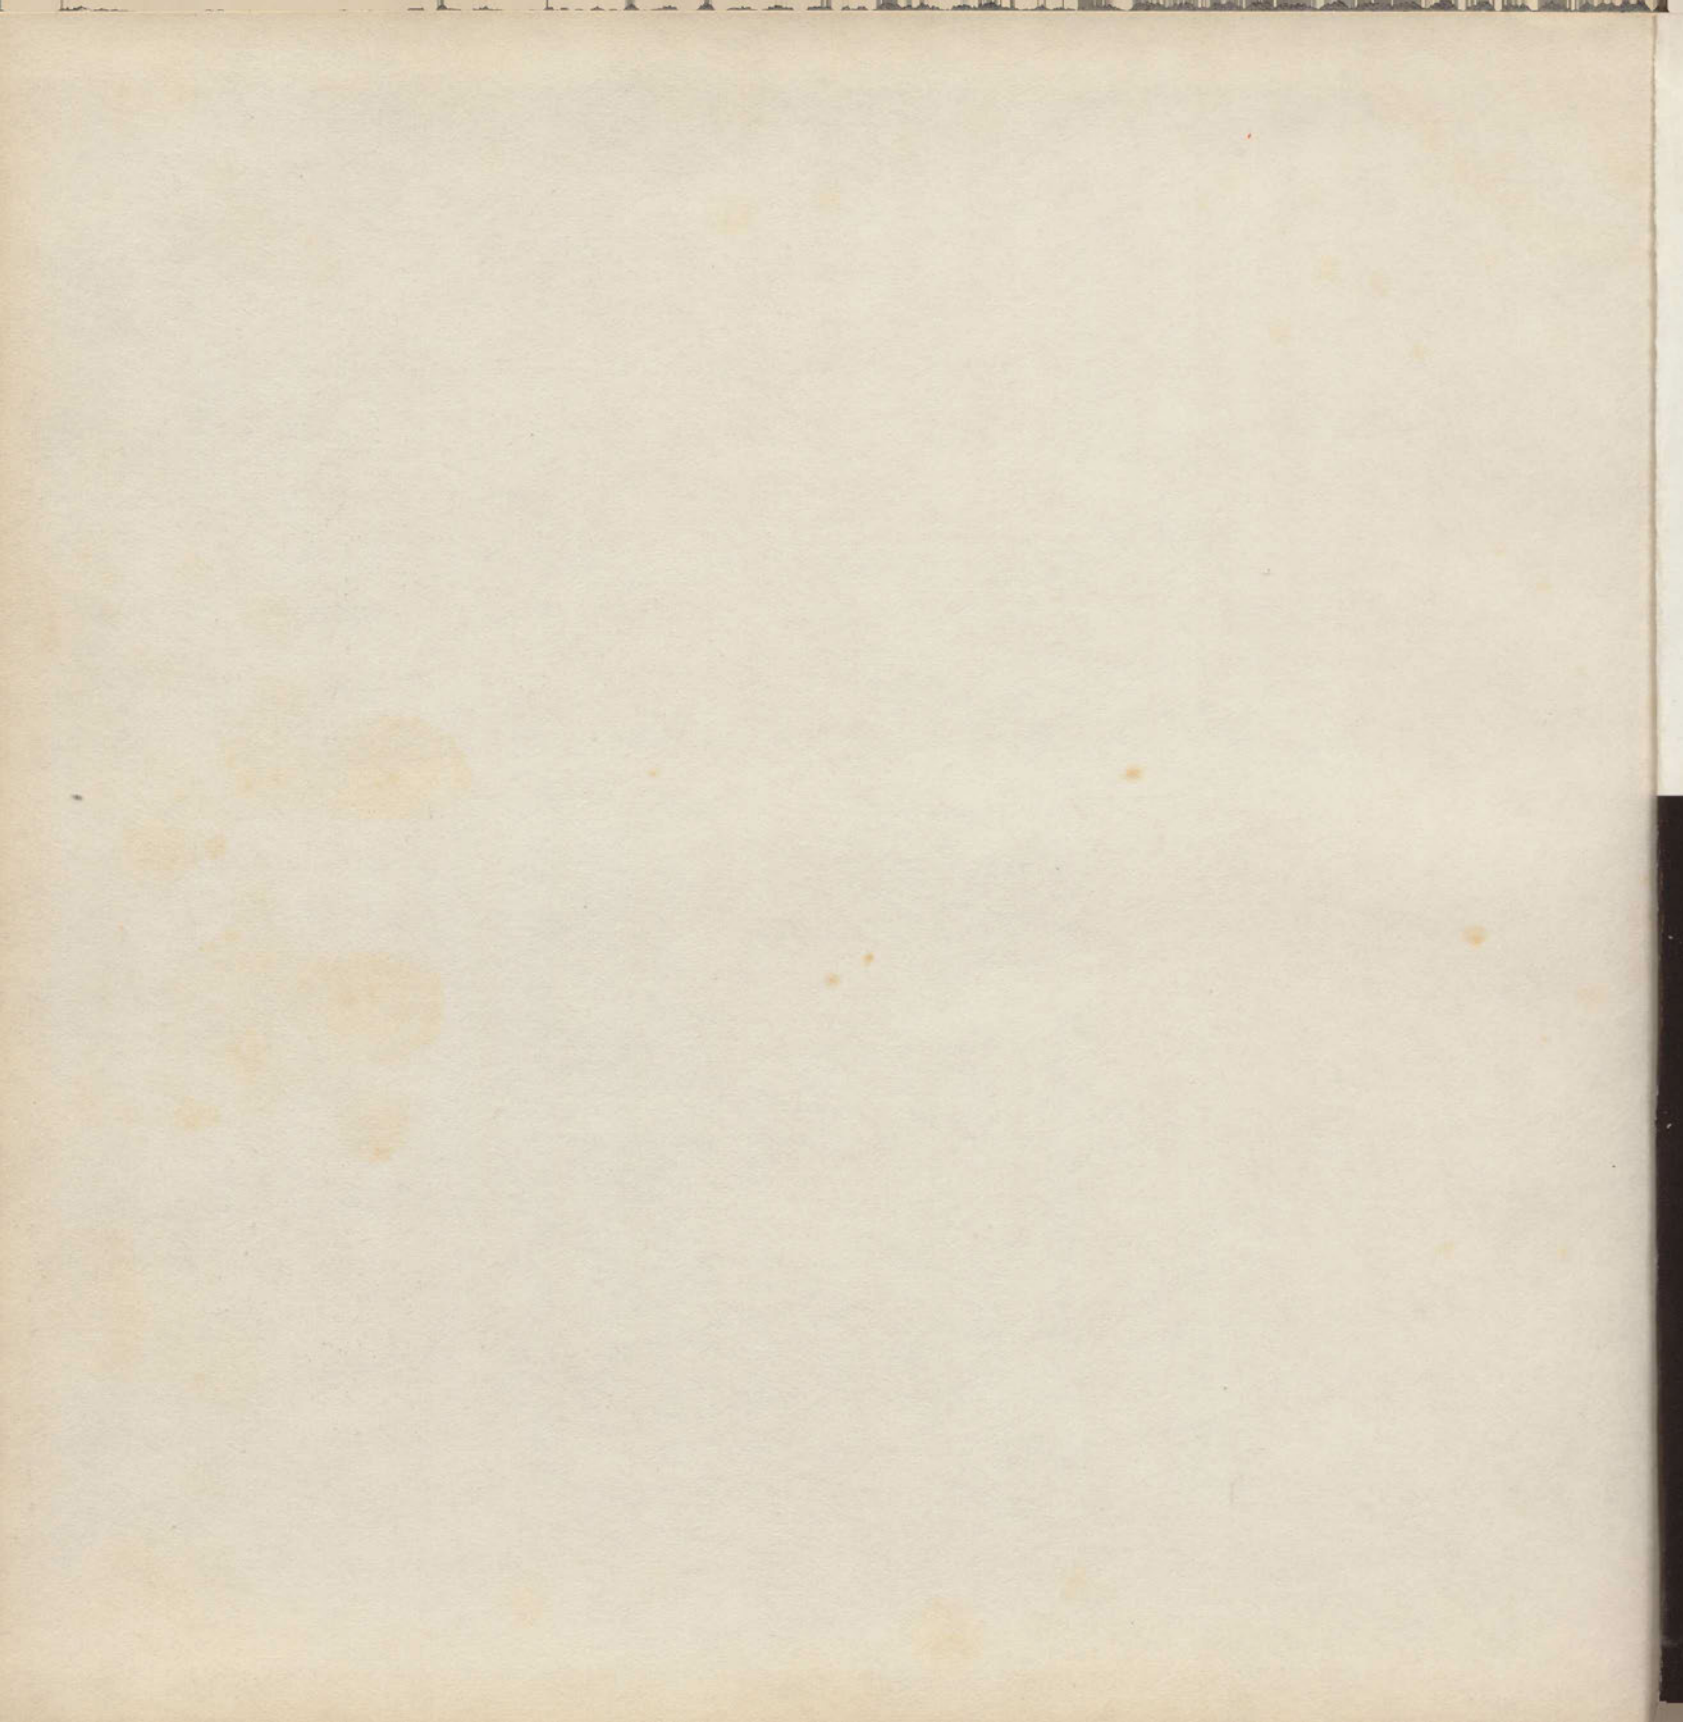

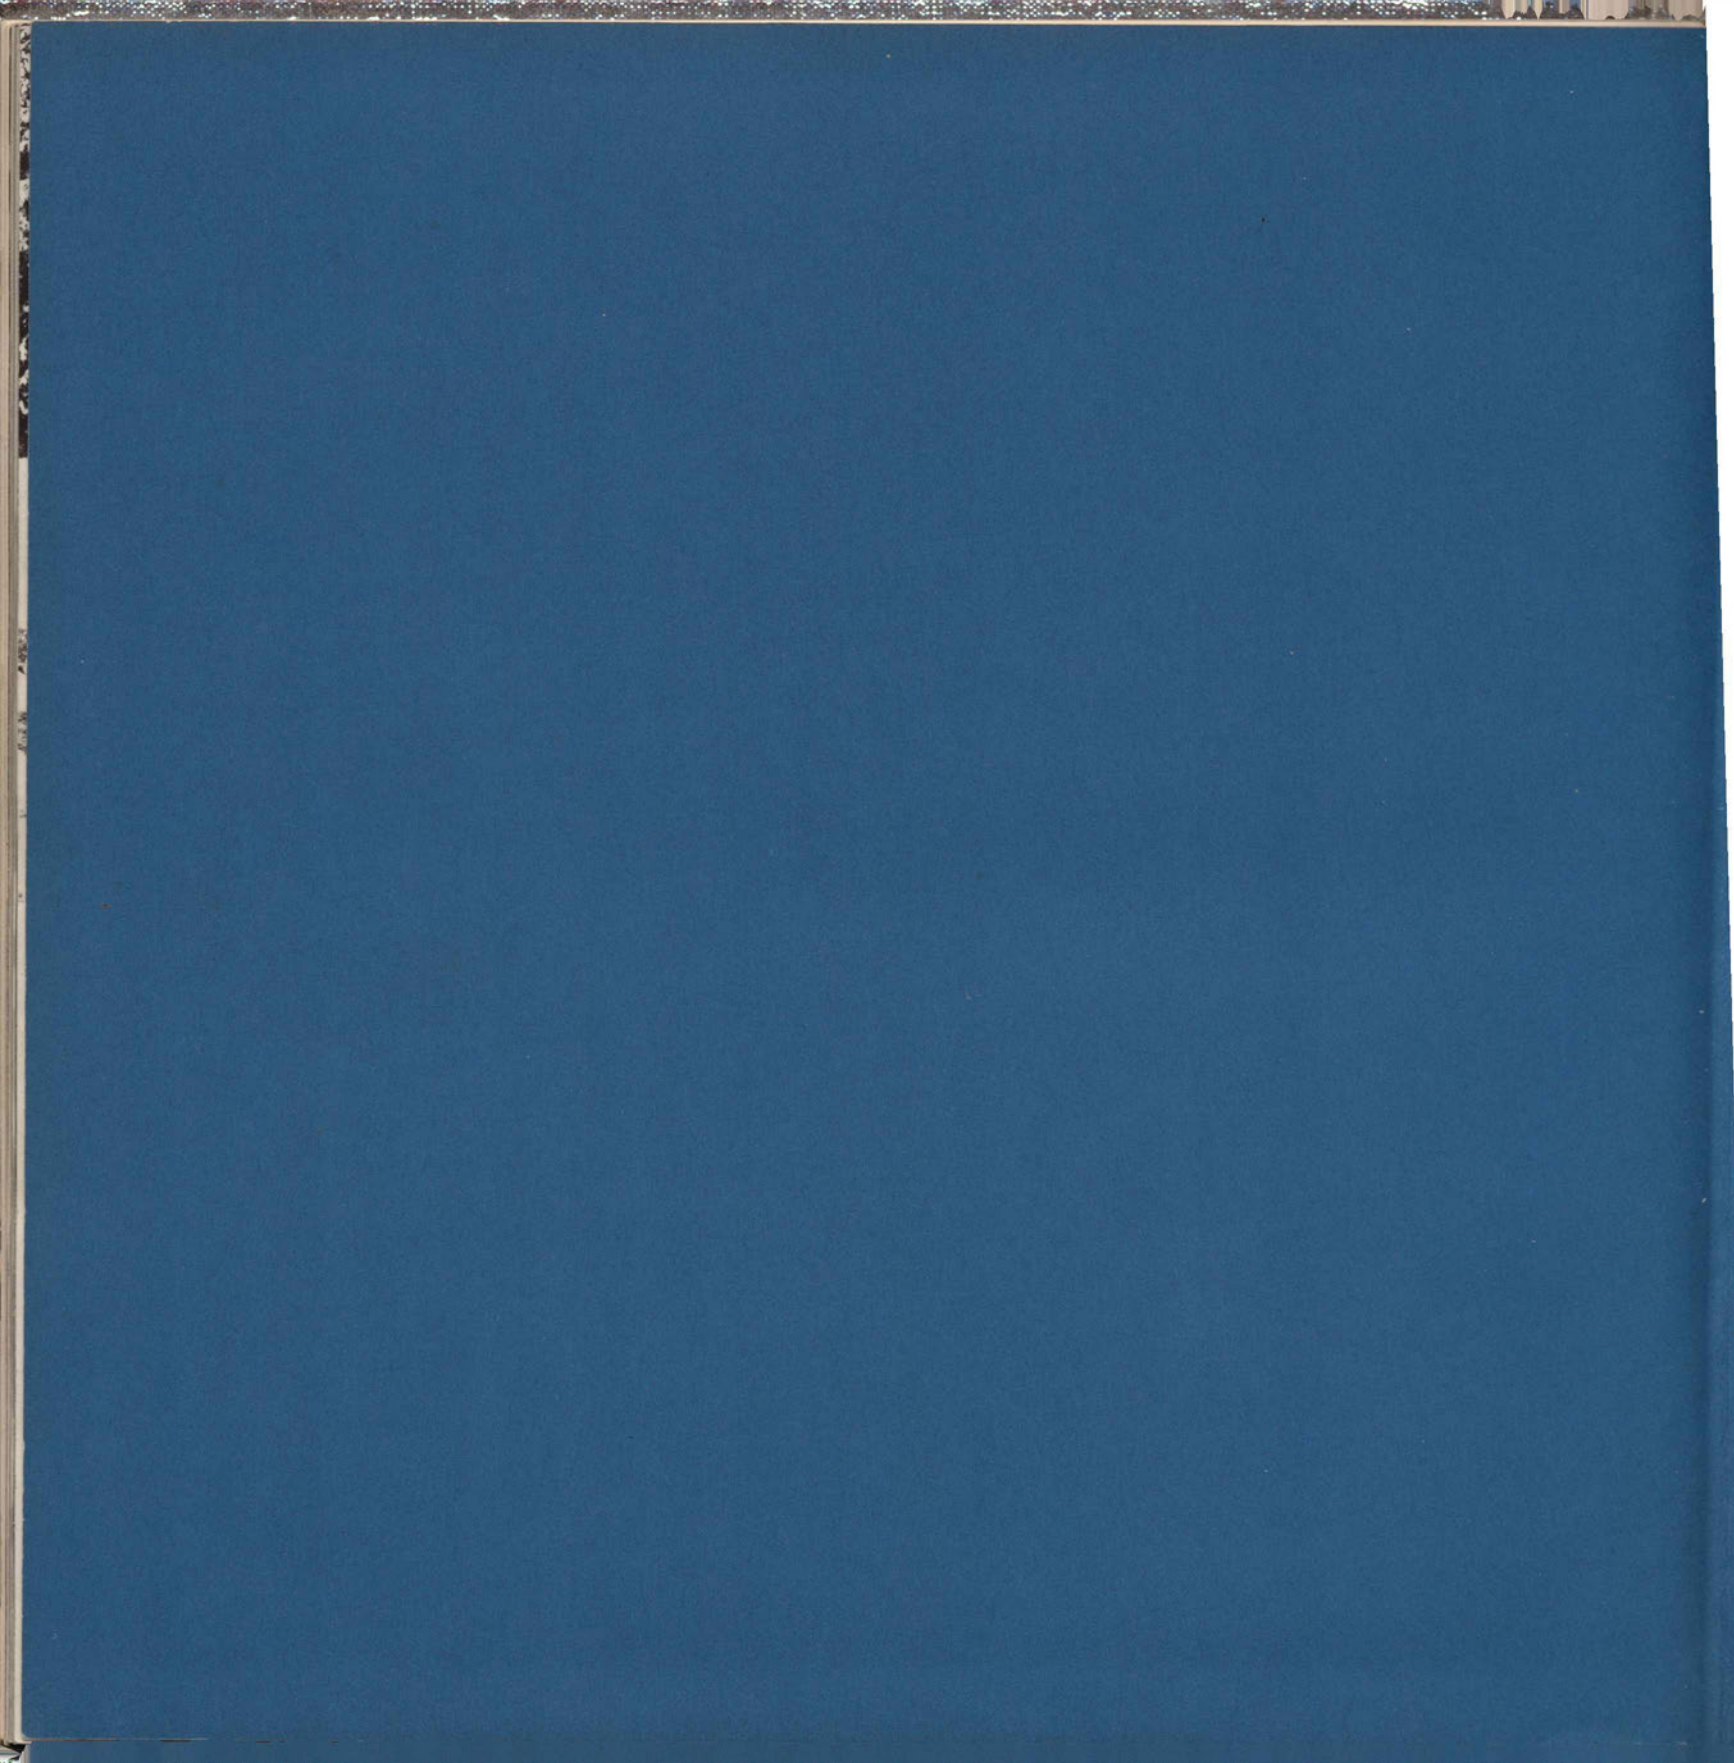

With the light we see the beauty of the world around us. The people we live and work with greet us as we capture them vividly in our minds. We will long remember this place, our friends, and all that has happened here.
